

11-3-15

Dear Council Members,

I am writing to you about how Greensboro uses way too many plastic bags. Plastic bags kill many animals every year. This is mostly sea life, but land animals also die of plastic bags.

As you probably already know, many, many stores use plastic bags. Also many, many people are against plastic bags, including my whole class. In fact, my class has made a reusable bag that we hope many people will use.

If you can do anything about this terrible thing please do.

Sincerely,

Sal Smith
