## **STAFF ANALYSIS AND RECOMMENDATION**

### **Community Outreach**

Applicant is strongly encouraged to discuss this proposed rezoning and development with owners of surrounding properties.

### **Staff Analysis**

This 1.52-acre subject site is currently a combination of undeveloped property and a single family dwelling. North of the request is a single family dwelling (County-RS-40). East of the request is undeveloped property (zoning transitions from County RS-40 and County AG to City CD-RM-12). South of the request is a single family dwelling and undeveloped property (City CD-RM-12). West of the request, across Strickland Ct, is a self storage facility (County CU-HB).

The Generalized Future Land Use Map designates this site as Moderate Residential. The Moderate Residential designation accommodates housing types ranging from small-lot, single-family detached and attached single family dwellings such as townhomes to moderate density, low-rise apartment dwellings.

The CD-RM-12, Conditional District-Residential Multifamily request, as conditioned, will limit potential uses to residential uses only that are compatible with the trend of development in this area. Approving this request will help meet the needs of present and future Greensboro citizens for a choice of decent, affordable housing in stable, livable neighborhoods that offer security, quality of life and the necessary array of services and facilities. It also provides a development framework for the fringe to guide sound, sustainable patterns of land use, limit sprawl and provide for efficient provision of public services and facilities as the City expands.

This request is consistent with the intent and purpose of the zoning code, the Comprehensive Plan (Connections 2025) and is generally compatible with the existing development and trend in the surrounding area.

**Staff Recommendation**

Staff recommends **approval** of the requested **CD-RM-12** (Conditional District-Residential Multifamily) zoning district.
