

# POLICE AND SECURITY MOTORCYCLES

## POLICE AND SECURITY MOTORCYCLE OVERVIEW

Zero Motorcycles offers police and security motorcycles with customizable options to meet the specific needs of a wide variety of patrol applications.

With the ability to patrol both on and off road areas, Zero Motorcycles police and security models offer unique advantages over internal combustion driven machines. The 100% electric powertrain is nearly silent, exhaust free, produces minimal heat, has instant torque from zero rpm and is highly maneuverable.

With a 'fuel' cost of a penny per mile and a maintenance-free powertrain, a Zero Motorcycles patrol fleet offers the ability to save police and security agencies money while also giving them a tactical advantage.

In certain regions, grants and incentives may be available specifically for both public and private organizations when purchasing electric patrol vehicles. In addition, consumer incentives may actually be applicable to purchases made by either government or private organizations.
