### Impact

Will this project duplicate or compete with another service or program provided by the City of Greensboro or other local agency?

☐ Yes ☒ No

How will this program/project benefit the City as an organization?

This project will provide improvement in Water Quality and enhancement of future opportunities for recreation and education. The City is tasked through its National Pollution Discharge Elimination Permit to improve the quality of surface waters. South Buffalo Creek is a nutrient sensitive waterway and this project is located in the Jordan Lake Watershed. The City is tasked with helping to reduce nutrient loading in the Jordan Lake Watershed. This phase of the project is a continuation of previous phases.

How will this program/project benefit the City as a region?

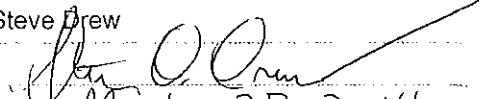

South Buffalo Creek is a nutrient sensitive waterway and this project is located in the Jordan Lake Watershed. The City is responsible for helping to reduce nutrient loading in the Jordan Lake Watershed. This project combined with numerous other water quality projects in the vicinity will help to reduce both sediment and nutrient loads.
