15. [ID 15-0815](#) Ordinance in the Amount of \$1,210,347 Amending The FY 15-16 General Fund Budget And The FY 15-16 General Capital Improvements Fund Budget

Charles Coffee, 1903 Freeman Mill Road provided the history of the demise of the building; spoke to the appropriation and collection of funds; responsibilities of the owners; to documents filed in the court system; referenced conversations with the City prior to the closing of the building; stated the Association worked closely with the Police Department; and confirmed that some of the owners had paid their Association dues.

Councilmember Wilkins asked about the number of owners who were current; and about the timeframe that they had gotten behind in their dues.

Mr. Coffee provided the number of owners and number of units that dues had been paid on.

Councilmember Hightower asked about the number of units owned by Mr. Coffey; referenced the amount of water liens against the property; lack of improvement to the property; amount of money spent on public safety calls to the property; spoke to the City responsibility to improve the area; and the need to move forward with the item.

Councilmember Barber referenced good points made by Councilmember Hightower; stated he received a call from a realtor regarding a prospective owner for the property; verified he was not making any representation; and asked if Council would consider a two week continuance of the item.

Moved by Councilmember Barber, seconded by Councilmember Wilkins to continue the item for two weeks.

Discussion ensued regarding clarification of the continuance; no further delay in the process; lack of the prospective buyer in the past two years; legal ramifications should the item be postponed; the need to move forward with the item to assist Southeast Greensboro; timeframe for bringing a continuance forward; process for negotiation with the owners; persons being displaced; putting the property back on the City tax rolls; and verification that a two week delay would not compromise the City.

Planning Director Sue Schwartz provided an outline of what adoption of the ordinance would allow the City to do in moving forward; and verified that the City would not be in a position to entertain any type of development of the property until they had acquired ownership.

Further discussion took place regarding the possible postponement of the item; that both the City and a developer could move forward within the next two weeks; information that could be provided to a developer by the City; and information provided to Council.

Mayor Pro-Tem Johnson called the question.

Councilmember Wilkins suggested the item be run through the committee structure of Council.

Discussion took place regarding risk to the City; Council voting at the last meeting that the item would not need to go through a committee; and reference to the number of work sessions the item had been discussed at.

Mayor Vaughan stated a motion was on the floor. The motion FAILED 7-2 with Councilmembers Barber and Wilkins voting 'yes'.

Councilmember Wilkins voiced concerns that the item would not move through a committee; spoke to the lack of a legal deadline for the item; inquired as to the funding for the purchase; how many units the City would acquire; and ramifications should the owners not wish to convey the units to the City.

City Attorney Carruthers responded that there were approximately 177 units plus the common area; emphasized that offers were made based on appraisals; addressed the condemnation process; verified that the City would follow the same procedure with all of the owners; and provided the status of the event center located in the vicinity of the structure.

Moved by Councilmember Hightower, seconded by Councilmember Abuzuaiter, to adopt the ordinance. The motion carried on the following roll call vote:

Councilmember Barber requested staff to research the development of a potential ordinance prohibiting drones from flying over private property; and to have the Communications Department market information to the public that the City was working on the issue to show that the City was getting out in front of the issue.

City Attorney Carruthers responded that he had read the contract and reviewed the amendment to House Bill 318; referenced the language in Exhibit A of the contract regarding what City funds would be used for; stated it would not be appropriate for the City to continue funding the current contract beyond September 29th given the wording in Exhibit A; and spoke to the services of Faith Action which provided immigration support.

Councilmember Abuzuaiter referenced language in Exhibit A of the contract; the Police Department using the IDs for identification; and inquired if there was a policy regarding funding.

Discussion ensued regarding the City funding Faith Action activities other than ID cards; if an ordinance or policy existed for Faith Action; contractual duties of non-profits; and amendment of the current contract to allow continued funding for other services and activities of Faith Action.

Councilmember Abuzuaiter verified that there was no language in the contract or policy stating the City had to accept the ID cards; and referenced the requirements of other non-profits the City funded.

City Attorney Carruthers spoke to the law; voiced that he did not have the level of comfort to continue with the current contract unless it was modified; and voiced appreciation for Councilmember Abuzuaiter's dedication to the project.

Councilmember Wilkins referenced discussions in work sessions regarding the ID cards; Faith Action using City funds for something other than what it was designated for; asked if Faith Action would need to come back to the City during the next budget season; and why the City was funding Faith Action if the non-profit was fully funded through other means.
