

# W&S Rehab Project “L”

## Contract 2012-095

Steven Drew, Director  
Water Resources

# Water & Sewer Rehabilitation

## By the Numbers...

- Water Resources began a dedicated sewer rehabilitation program in 1998.
- Waterline rehabilitation was added in 2009.
- Current FY 2016-17 proposed funding at \$7,592,000
- Program funding increases each year
- Rehab program has impacted ~ 9.5% of Greensboro's residences (by service connection).
- Greensboro's program is widely recognized for its innovation and cost effectiveness in W&S Rehabilitation through out the State and Southeast.

# Water & Sewer Rehabilitation

# Water & Sewer Rehabilitation

## Why Have Extendable Contracts?

- Lower unit prices since contractors are assured more work over a longer period of time.
- Provides on-call for emergency and urgent work.
- Provides flexibility in scheduling work.
- Saves money by reducing contracting and engineering costs vs. separate contracts.
- Provides continuity and quality of work reducing risk and minimizing customer service issues/complaints.

# Water & Sewer Rehabilitation

## Action Requested:

The Water Resources Department recommends and requests that City Council approve Contract Extension #3 for Contract 2012-095 in the amount of \$7,592,000
