**IMPACT/POLICY ANALYSIS****Land Use Compatibility**

The proposed **R-3 (Residential, Single Family – 3 du/ac)** zoning would allow land uses that are compatible with the general character of the area.

**Connections 2025 Comprehensive Plan Policies**

The Generalized Future Land Use Map designates this location as **Low Residential (3-5 d.u./acre)**. The requested **R-3 (Residential, Single Family – 3 du/ac)** zoning district is generally in/consistent with the **Low Residential (3-5 d.u./acre)** GFLUM designation. The Growth Strategy Map designates the subject site as being within **Growth Tier 1, Current Growth Area (2013 – 2019)**.

**Connections 2025 Written Policies**

**Land Use Goal 4.1 – Growth Strategy:** Promote sound investment in Greensboro's urban areas, including Center City, commercial and industrial areas, and neighborhoods.

**Policy 4A:** Remove present impediments to infill and investment in urban areas.

**Policy 4B:** Target capital investments to leverage private investment in urban areas.

**Policy 4C:** Promote new patterns and intensities of use to increase economic competitiveness and enhance quality of life in urban areas.

**Policy 4D:** Identify potential opportunities and selectively target, plan and promote development/reuse initiatives.

**Community Character, Goal 5.2 – Man-Made Environment:** Preserve and enhance the character and visual quality of Greensboro's built environment, including historic resources, private developments, and public landscapes.

**Policy 5E:** Improve the aesthetic quality of publicly owned and maintained landscapes.

**Policy 5F:** Implement and improve design standards governing the appearance of development from public roadways.

**Housing and Neighborhoods, Goal 6:** Meet the needs of present and future Greensboro citizens for a choice of decent, affordable housing in stable, livable neighborhoods that offer security, quality of life, and the necessary array of services and facilities.

**Policy 6C:** Promote the diversification of new housing stock to meet the needs of all citizens for suitable, affordable housing.

**Economic Development, Goal 7:** Promote a healthy, diversified economy with a strong tax base and opportunities for employment, entrepreneurship and for-profit and non-profit economic development for all segments of the community, including under-served areas such as East Greensboro.

**Policy 7A:** Target city investment and regulatory policies for economic development.

**Policy 7C:** Ensure that city land use policies and regulations allow for an adequate supply of land to accommodate economic development.

**Transportation, Goal 8:** Develop and maintain a safe, efficient, and environmentally sound transportation system that provides convenient choices for accessing destinations throughout Greensboro and the Triad, including a range of well-integrated transit, pedestrian, and bicycle linkages.

**Policy 8A:** Maintain a roadway network that safely and efficiently accommodates vehicular traffic while supporting other community objectives defined in the Comprehensive Plan.

### **Connections 2025 Map Policies**

**Low Residential (3-5 d.u./acre):** This category includes the City's predominantly single-family neighborhoods as well as other compatible housing types that can be accommodated within this density range. Although there are some existing residential areas in the City developed on lots greater than 1/3 acre, future residential developments and "conventional" subdivisions should generally maintain a gross density of no less than three dwellings per acre, except where environmental constraints (e.g., the Watershed Critical Area) prevent such densities from being achieved. Compact developments that include clustered, small lots with substantial retained open space are encouraged.

**Growth Tier 1, Current Growth Area (2013 – 2019):** Where infrastructure systems are in place, can be economically provided and/or will be proactively extended and where continued annexation and consolidation of the City's development pattern shall be encouraged over the next six years.

## **CONFORMITY WITH OTHER PLANS**

### **City Plans**

#### ***Sustainability Action Plan***

#### **Element 1) Transportation and Land Use:**

**Policy 1)** Encourage increased density, a mix of land uses and more integrated links between transportation and land use through changes to Greensboro's Comprehensive Plan, Development Ordinance and other related plans.

**Element 2)** Green Jobs and Buildings:

**Policy 3)** Develop a coordinated City program to provide technical support, energy audits and education and outreach to increase energy efficiency and conservation in commercial and residential buildings.

**Policy 4)** Use a combination of code changes, incentives, partnerships and education to promote green building in Greensboro.

**Policy 6)** Promote more efficient use of water through education, partnerships and pilot projects.

**Element 3)** Waste Reduction and Recycling:

**Policy 7)** Employ a combination of expanded recycling infrastructure, regulations and incentives to increase Greensboro's solid waste diversion and recycling rates.

**Element 6)** Education and Outreach:

**Policy 11)** Provide technical support, awards and recognition to individuals and organizations furthering Greensboro's energy and sustainability efforts.

**STAFF ANALYSIS AND RECOMMENDATION**

**Community Outreach**

Applicant is strongly encouraged to discuss this proposed rezoning with owners of surrounding properties.

**Staff Analysis**

The 0.98-acre subject property is currently developed with a single-family dwelling. North and east of the request are single family dwellings (zoned County RS-40). South of the request is undeveloped property (zoned County RS-40) and west of the request is a religious assembly use (zoned County RS-40).

The Comprehensive Plan's Future Land Use Map designates this area as Low Residential. This category includes the City's predominantly single-family neighborhoods as well as other compatible housing types that can be accommodated within a density range of 3 to 5 dwelling units per acre.

The request to annex and assign original zoning is a result of changes to the City Council adopted Water Sewer Services Policy. Effective May 20, 2014 all public water and sewer extensions require voluntary annexation prior to receiving the City's utility services. The subject property is located within Growth Tier One, is contiguous to the City's primary corporate limits and the Technical Review Committee recommended approval of this associated annexation request.

The request to assign original zoning of R-3 (Residential Single Family) is driven by the desire of the applicant to connect to public utilities. The requested zoning district is the closest equivalent to the current County zoning designation and consistent with the Comprehensive Plan's future land use designation.

As such, the request is compatible with adjacent residential development and supports the Comprehensive Plan's Housing and Neighborhoods goal to meet the needs of present and future Greensboro citizens for a choice of decent, affordable housing in stable, livable neighborhoods that offer security, quality of life, and the necessary array of services and facilities. It is also consistent with the Growth at the Fringe goal to promote sound and sustainable patterns of land use.

This request is consistent with the intent and purpose of the zoning code, the Comprehensive Plan (Connections 2025) and is generally compatible with the existing development and trend in the surrounding area.

**Staff Recommendation**

Staff recommends **approval** of the requested **City R-3** (Residential Single-family) zoning district.
