Jim Westmoreland
City Manager
300 W. Washington St.
Greensboro, NC 27401

Dear Jim:

I wanted to share with you the Community Foundation's support and excitement over the possibilities of the proposed Greensboro Housing Hub. This innovative approach to offering nonprofit housing services in one location will open the door to a world of opportunities for low-income families in our community. This project will need the support of the public and private sector working in tandem to make it into a reality.

To that end, the Community Foundation of Greater Greensboro has committed to work toward raising \$250,000 in private funds for every dollar invested in public funds. The investment of funds from the City will reap benefits for years to come, as we ramp up the collective efforts to improve the affordable housing stock in Greensboro. A unified approach will effectively utilize assets invested and set us on a new path towards ensuring Greensboro has safe, affordable and available housing for everyone.

This project needs the full support of the City of Greensboro and the leaders of our Community. I wholeheartedly commit our support toward the Greensboro Housing Hub. I look forward to working together to bring this project into fruition.

Best regards,

Walker Sanders
President
