PURPOSE:

The Engineering & Inspections Department requests City Council approval of an agreement with the Colonial Pipeline Company for the relocation of their pipeline at Fleming Road.

BACKGROUND:

The Transportation Department has approved the widening of Horse Pen Creek Road with construction beginning in 2016. City Council authorized this roadway improvement project at a public meeting on March 15, 2011.

The widening of Horse Pen Creek Road will accommodate projected future traffic volumes caused by anticipated growth along the corridor and in northwest Greensboro. Congested conditions occur during peak travel periods and the current traffic volume greatly exceeds the capacity of the existing roadway. The proposed project will relieve congestion on Battleground Avenue, improve safety throughout the corridor, and provide enhanced pedestrian and bicycle mobility. The roadway will be widened from two lanes to four lanes with curb and gutter, sidewalks, bicycle lanes, and a raised landscaped median.

Before construction of the roadway can begin, Colonial’s major fuel pipeline under the roadway must be relocated. Because Colonial owns an easement for their pipeline, the full cost of moving and adjusting it will be borne by the City and was included in the budget for the project.

BUDGET IMPACT:

The relocation will be funded by 2008 Transportation Bond Funds. Funding in the amount of \$867,000.00 is available in account #471-4502-08.6014 A14068.

RECOMMENDATION / ACTION REQUESTED:

The Engineering & Inspections and Transportation Departments recommend approval of the agreement with the Colonial Pipeline Company in the amount of \$867,000.
