PURPOSE: This purpose of this agenda item is to provide a new In-Range Salary Adjustment Program Policy that is intended to find ways to meet the needs of the City's employees and organization and, on making the best use of City resources to ensure it stays market competitive while being able to continue to provide high quality services to its citizens. The new In-Range Salary Adjustment Program will complement the existing merit pay system program (pay for performance) and provide a new tool for Department Directors to make warranted salary adjustments to existing employees' salaries within current pay ranges and, for staff to address an organizationally identified compensation issue where certain grades of positions are currently falling behind the market.
