Contact 2 and Phone: Chris Marriott, Senior Manager Solid Waste, 336-373-7612

**PURPOSE:** The Field Operations Department is seeking approval to enter into a contract for future potential storm debris and hauling with Southern Disaster Recovery from 03/01/2019-2/28/2021 with a one year extension option. This contract is based on an estimated four thousand ton single event, and such an event would be an estimated cost of \$435,800.00. Field Operations is additionally requesting for Council to authorize and delegate authority to the City Manager to approve any future events with an estimated cost of \$100,000 or higher, as storm debris and hauling events are unpredictable and the City may encounter multiple severe events over the life of this contract.

**BACKGROUND:** On December 18, 2018, the Procurement Services Division on behalf of Field Operations conducted an on-line competitive request for proposals (RFP) for storm debris removal and hauling. The M/WBE office was consulted and M/WBE recommended HUB certified M/WBE firms from the Greensboro 10-county region to which Procurement Services Division sent email notifications. . The selected firm has indicated that it will subcontract with the three firms suggested by the M/WBE office; they are J&R Trucking, J Macs Hauling, Inc. and Bill H. King Trucking, Inc.

**BUDGET IMPACT:** Charges for this contract would be paid from available budgeted funds in the General Fund. Incurred costs are contingent on an actual severe weather event.

**RECOMMENDATION / ACTION REQUESTED:** The Field Operations Department recommendation is to award this contract to Southern Disaster Recovery. Council approval of a resolution authorizing the award of Contract 2019-10685 to Southern Disaster Recovery is requested.
